

Laval, June 8, 2015 – Montpak International Inc. is delighted to announce the launch of its newly designed website www.montpak.ca for the benefit of our valued customers and business partners. We've carefully thought through every aspect of the site, as well as gathered information that we deemed most relevant to our visitor. The final product is the result of a collaborative effort by our sales, marketing and IT departments over the past 6 months. Our team worked diligently to build a brand new site, with a fresh and clean look, rich in information... *just for you.*

Our goal with this new site is to offer visitors an easier way to learn more about Montpak, in addition to providing access to clear and accurate product information. We are confident that our current and prospective customers will find this information quite useful while also discovering new and exciting recipes. In this era of ever-changing habits by the everyday consumer, we will make it our goal to provide visitors with the most accurate, up-to-date information so as to share our knowledge and expertise as best we can.

Content, product information and recipes will be updated regularly. We have enhanced the product section to include nutritional content and photos that best represent our products. We have also included a career section whereby all job opportunities will now be posted as they become available and where you can apply online for positions posted.

Since 1959, we've prided ourselves on delivering exceptional products and service, and helping our customers attain their business goals through best-in-class products, excellence, and unparalleled service worldwide.

We hope you find our website, with its fresh new look, easy to use and informative. We invite you to come visit us and give us your feedback. We look forward to hearing from you: info@montpak.ca

Montpak International, a family owned and operated, quality driven processor of a wide range of fresh, frozen and value-added veal and lamb products. Quality since 1959.
